- Effective verbal communication.
- Customer service orientation.
- Adaptability and fast learning.
- Teamwork.
- Team leadership and coordination.
- Problem solving.

LANGUAGES

- Spanish – Native
- English – B2-C1

PROFESSIONAL PROFILE

Fifth-semester Software Engineering student at Universidad de la Cámara de Comercio de Bogotá. Proactive, sociable and service-oriented, with experience in customer service, team leadership and technology projects. While I am still building my formal work experience, I have shown outstanding performance in professional internships, customer service and representing projects at business events. I adapt easily, learn quickly and communicate clearly, which allows me to integrate effectively into dynamic, results-driven environments.

EXPERIENCE

PROJECT LEADER AND MANAGER

FUSOFT · 2026 – Present

- Lead student teams in the development of web applications and technology projects.
- Coordinate activities, assign tasks and track progress toward objectives.
- Maintain ongoing communication with clients to identify needs and requirements.
- Promote collaborative work and efficient problem solving.

WEB DEVELOPMENT INTERN

FUSOFT · 2025 – 2026

- Developed web pages using HTML and CSS.
- Contributed to building the “Evaluación 365” platform for tracking results and evaluation history.
- Supported improvements to the user experience and visual presentation of web applications.
- Worked with clients to understand their needs and requirements.
